

CLEFT & CRANIOFACIAL AWARENESS MONTH

Smile Oregon invites you to take action and spread awareness about cleft and craniofacial differences during the month of July! Each week there's a new challenge where you can use your story to make a difference.

WEEK

1

Launch your fundraiser

Every month there are kids who need help funding their treatments. Would you join others and fundraise on their behalf? It's easy and best of all, it changes the life of a kid facing upcoming treatments and surgeries!

WEEK

2

Walk for Awareness

Gather friends, family and neighbors and walk 1 mile together to stand in solidarity for those walking this journey. Post a picture on your social media with hashtag #smileoregonwalk

WEEK

3

Tell your story

We invite you to share your experience with cleft and craniofacial conditions. Submit your story online or even send us a short video. We will help you share it within our Smile Oregon community.

WEEK

4

Encourage one another

Encouragement goes a long way! Scan this code to scribe a quick note of encouragement to one of our Smile Oregon kiddos! Let's encourage our community!
